Name: _____

A Moment in Time – Analyzing a Visual Text

Foundation Lesson

It has been said that "a picture is worth a thousand words," and we've all had "Kodak" moments. It is true that a photograph captures a single "moment in time" and preserves the image of the moment. But for all that a photograph reveals, there are things that remain hidden. Study the photograph you selected and answer the questions that follow.

1. Describe the scene shown in the picture.

3. The picture captured visual images. What other sensory images come to mind when you think about the event? Consider all senses.

4. What feelings or emotions does the picture evoke?

5. What does the picture not show?
